

AGRI-100

DESCRIPTION

Agri-100 is a liquid product formulated to protect your feeds against molds and their toxins.

APPLICATIONS

Agri-100 is easy to use in liquid form. It can be sprayed into feeds while they are mixed or formulated. This making Agri-100 the only practical solution available.

FEATURES AND BENEFITS

Agri-100 is the only effective way of stopping toxic production in feeds and grains. It will protect you feeds for 3 weeks or more depending on local factors (variation in temperature, ventilation and moisture).

RECOMMENDED FEED BLEND

Use 8 to 24 ounces per ton of feed. For 15% moisture use 8 ounces, 16% to 17% use 16 ounces, 18% and up use 24 ounces.

INGREDIENTS

Agri-100 is a unique blend of 100% propionic acid and carriers.

APPEARANCE

Agri-100 is a light brown, liquid.

COMPATIBILITY

It is safe and effective with all ingredients normally used in animal feeds.

PURITY

It is manufactured and sold in strict compliance with the U.S. Food and Drug Administration's standards for purity and quality. This mixture is fully cleared by FDA for use in feeds and grains.

PACKAGING

Liquid formulation is sold by the pound and available in quantities from 50 to 425 lbs. All containers are clearly labeled by product name, ingredients and recommended directions for use.

For further details, consult your Agri-Flavors representative or call the factory direct.

CAUTION!!
AVOID INHALING VAPORS AND SKIN CONTACT.
USE IN WELL VENTILATED AREA.
