

AGRI-50

DESCRIPTION

Agri-50 is a dry product formulated to protect your feeds against molds and their toxins.

APPLICATIONS

Agri-50 is readily mixed into feeds. This making Agri-50 the only practical solution available.

FEATURES AND BENEFITS

Agri-50 is the only effective way of stopping toxic production in feeds and grains. Agri-50 is a free flowing, fine granulate that is easy to handle and use. It will protect you feeds for 3 weeks or more depending on local factors (variation in temperature, ventilation and moisture).

RECOMMENDED FEED BLEND

Use 1 to 3 pounds per ton of feed. For 15% moisture use 1 pound, 16% to 17% use 2 pounds, 18% and up use 3 pounds.

INGREDIENTS

Agri-50 is a blend of 50% propionic acid and a unique mixture of inert carriers.

APPEARANCE

Agri-50 is a dry, dark colored, free-flowing, granular material.

COMPATIBILITY

It is safe and effective with all ingredients normally used in animal feeds.

PURITY

It is manufactured and sold in strict compliance with the U.S. Food and Drug Administration's standards for purity and quality. This mixture is fully cleared by FDA for use in feeds and grains.

PACKAGING

Agri-50 is packaged in a special 50 pound foil lined bag. Packets are clearly labeled by product name, ingredients and recommended directions for use.

For further details, consult your Agri-Flavors representative or call the factory direct.

CAUTION!!
AVOID INHALING VAPORS AND SKIN CONTACT.
USE IN WELL VENTILATED AREA.
NOT FOR HUMAN CONSUMPTION.
