

AGRI-MIN DRY

DESCRIPTION

Agri-Min Dry is a taste supplement which makes all animal feeds more desirable and palatable.

APPLICATIONS

Agri-Min Dry is most enticing flavor for many livestock animals. Use it as an enhancer for feeds you have developed for dairy and beef cattle, pigs, hogs and sheep. It is especially recommended for use in mineral feed formulations.

FEATURES AND BENEFITS

Agri-Min Dry imparts a persuasive taste and aroma that attracts livestock to a variety of feed rations. It is particularly effective when used in mineral formulations to mask inherent chalkiness and bitterness. For the same reason, it allows for a wide variance in feed ingredients.

RECOMMENDED FEED BLEND

Dry - Use 1 to 2 pounds per ton of feed.

INGREDIENTS

Contains natural and artificial flavors, roughage products, attapulgitic clay, and TBHQ (to preserve flavor).

APPEARANCE

Fine textured, light brown, free-flowing granular material.

COMPATIBILITY

It is safe and effective with all ingredients normally used in animal feeds.

PURITY

It is manufactured and sold in strict compliance with the U.S. Food and Drug Administration's standards for purity and quality.

PACKAGING

Dry – Standard packaging for dry-formulations is a 50-lb. Bulk bag. Products can also be packaged in a range of 1 to 2 ½ lbs. heat-sealed packets upon request.

For further details, consult your Agri-Flavors representative or call the factory direct.

*Optional packet sizes available upon request.
