

## BERRY 1-100

### DESCRIPTION

Berry 1-100 is a unique fruity-flavored supplement which improves the acceptance of all animal feeds.

### APPLICATIONS

Berry 1-100, in either dry or liquid form, is an all-round flavor enhancer for feed formulations designed for dairy and beef cattle, horses, hogs, pigs and sheep.

### FEATURES AND BENEFITS

A deluxe, berry-flavored alternative to standard sweeteners, Berry 1-100 blends well into all feed mixtures and is easy to use.

### RECOMMENDED FEED BLEND

**Dry** - Use 1 to 2 pounds per ton of feed to achieve the sweetening effect of 100 to 200 pounds of sugar. **Liquid (O/S)** - Use 4 to 8 ounces per ton of feed. **Liquid (W/S)** - Use 4 to 8 ounces per ton of feed.

### INGREDIENTS

**Dry** - Berry 1-100 is a blend of berry, vanillin, other natural and artificial flavors, natural and artificial sweeteners, roughage products, attapulgitic clay and TBHQ (to preserve flavor). **Liquid (O/S)** - Contains vegetable oil, berry, other natural and artificial flavors and TBHQ (to preserve flavor). **Liquid (W/S)** - Contains propylene glycol, berry, other natural and artificial flavors and TBHQ (to preserve flavor).

### APPEARANCE

**Dry** - Berry 1-100 is a straw-colored, finely-textured, free-flowing granular material. **Liquid** - A golden yellowish fluid.

### COMPATIBILITY

It is safe and effective with all ingredients normally used in animal feeds.

### PURITY

It is manufactured and sold in strict compliance with the U.S. Food and Drug Administration's standards for purity and quality.

### PACKAGING

**Dry** - Standard packaging for dry-formulations is a 50-lb. Bulk bag. Products can also be packaged in a range of 1 to 2 ½ lbs. heat-sealed packets upon request. **Liquid** - This formulation is sold by the pound and is available in quantities from 50 to 450 lbs. All containers are clearly labeled as to product name, ingredients and recommended directions for use.
