

GREEN APPLE K DRY

DESCRIPTION

Green Apple K Dry is a fresh taste supplement for horse feed formulations.

APPLICATIONS

Add Green Apple K Dry to horse feed formulations (and other appropriate animal rations) to improve palatability and acceptance.

FEATURES AND BENEFITS

Green Apple K Dry imparts a true green apple aroma and taste to all horse feed mixtures at very little additional cost. This economical supplement is highly stable and retains its flavor and aroma over long periods after mixing. A researched product, it is easy to use and blends easily.

RECOMMENDED FEED BLEND

Use 1 to 2 pounds of Green Apple K Dry for each ton of feed.

INGREDIENTS

Green Apple K Dry is a blend of ethyl oxyhydrate, vanillin, ISO amyl butyrate, ethyl caproate, natural and artificial flavors, roughage products and TBHQ (to preserve flavor).

APPEARANCE

Green Apple K Dry is a light brown, free flowing, finely ground material.

COMPATIBILITY

It is safe and effective with all ingredients normally used in animal feeds.

PURITY

It is manufactured and sold in strict compliance with the U.S. Food and Drug Administration's standards for purity and quality.

PACKAGING

Standard packaging for dry-formulations is a 50-lb. Bulk bag. Products can also be packaged in a range of 1 to 2 ½ lbs. heat-sealed packets upon request.

For further details, consult your Agri-Flavors representative or call the factory direct.

*Optional packet sizes available upon request.
