

HORSE FLAVOR

DESCRIPTION

Horse Flavor is a taste enhancer for use in horse and pony feed mixtures.

APPLICATIONS

Here is a sure way to develop an acceptance for the feed formulations you blend and sell to stables, farms and horse breeders. The fresh taste and aroma of this special Agri-Flavors product is relished by horses of all breeds.

FEATURES AND BENEFITS

Horse Flavor is an economical taste additive that is easy to blend into all horse feed formulations. A consistent, strong flavor allows for a wide variation in feed ingredients. In addition, you and your customers will appreciate the long-term stability of this product.

RECOMMENDED FEED BLEND

Use 1 to 2 pounds per ton of feed.

INGREDIENTS

Horse Flavor contains apple, cinnamon, other natural and artificial flavors, roughage products, attapulgate clay, and TBHQ (to preserve flavor).

APPEARANCE

Horse Flavor is a finely textured, light brown, free-flowing granular material.

COMPATIBILITY

It is safe and effective with all ingredients normally used in animal feeds.

PURITY

It is manufactured and sold in strict compliance with the U.S. Food and Drug Administration's standards for purity and quality.

PACKAGING

Standard packaging for dry-formulations is a 50-lb. Bulk bag. Products can also be packaged in a range of 1 to 2 ½ lbs. heat-sealed packets upon request

For further details, consult your Agri-Flavors representative or call the factory direct.

*Optional packet sizes available upon request.
