

PERSIMMON FLAVOR

DESCRIPTION

Persimmon Flavor is a taste enhancer to be used in deer feed formulations.

APPLICATIONS

Add Persimmon Flavor to deer feed formulations (and other appropriate animal rations) to improve palatability and acceptance.

FEATURES AND BENEFITS

Persimmon Flavor is an economical taste additive that is easy to blend into deer and other feed formulations. A consistent, strong flavor allows for a wide variation in feed ingredients. In addition, you and your customers will appreciate the long-term stability of this product.

RECOMMENDED FEED BLEND

Dry - Use 1 to 2 pounds of Persimmon Flavor for each ton of feed. **Liquid** - Use 4 to 8 ounces for each ton of feed.

INGREDIENTS

Dry – Persimmon Flavor contains persimmon and other natural and artificial flavors, roughage products, attapulgate clay, and TBHQ (to preserve flavor). **Liquid** - contains vegetable oil, persimmon, other natural and artificial flavors and TBHQ (to preserve flavor).

APPEARANCE

Dry – Persimmon Flavor is a finely textured, light brown, free-flowing granular material.
Liquid – Light amber colored fluid.

COMPATIBILITY

It is safe and effective with all ingredients normally used in animal feeds.

PURITY

It is manufactured and sold in strict compliance with the U.S. Food and Drug Administration's standards for purity and quality.

PACKAGING

Dry – Standard packaging for dry-formulations is a 50 lb. Bulk bag. Products can also be packaged in a range of 1 to 2 ½ lbs. heat-sealed packets upon request. **Liquid** – This formulation is sold by the pound and is available in quantities from 50 to 450 lbs. All containers are clearly labeled as to product name, ingredients and recommended directions for use.

For further details, consult your Agri-Flavors representative or call the factory direct.

*Optional packet sizes available upon request.
